

Windows

How to I enter my activation key in to AVG

Instructions for the activation of your new AVG Internet Security licence

Step 1: Click on the AVG icon at bottom right hand corner of your screen. If you cannot see it my may need to click on the \wedge symbol and then click on the AVG icon (as shown in Figure 1) If you still cannot see it try looking on your desktop or start menu for an icon that that looks like the image in Figure 1

Figure 1: The AVG Icon

Step 2: Once you have the AVG control panel open go to the top right and select my AVG (Figure 2).

Windows

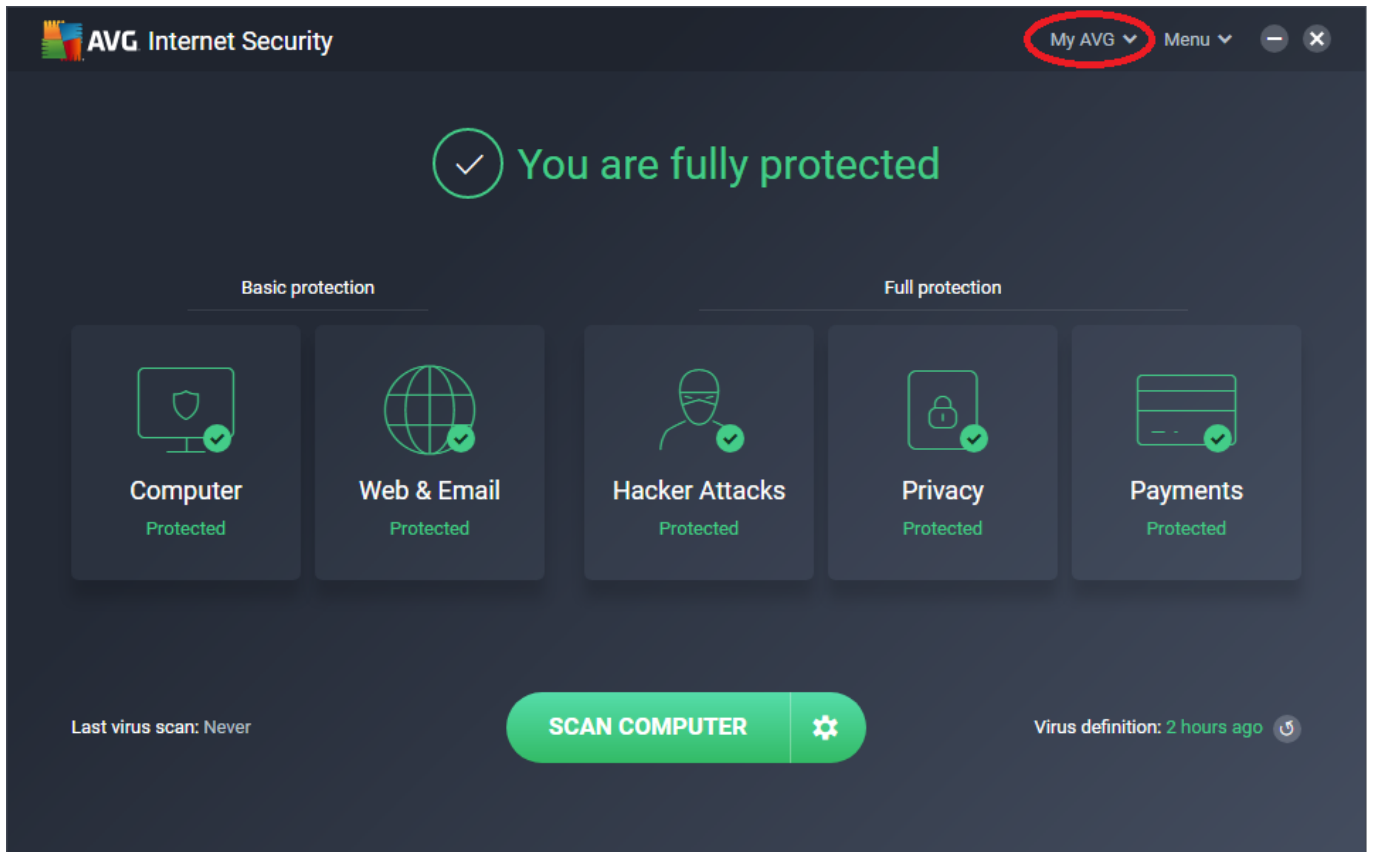

Figure 2: Location of the "My AVG" button

Step 3: Select my subscription from the menu that has now appeared (Figure 3)

Windows

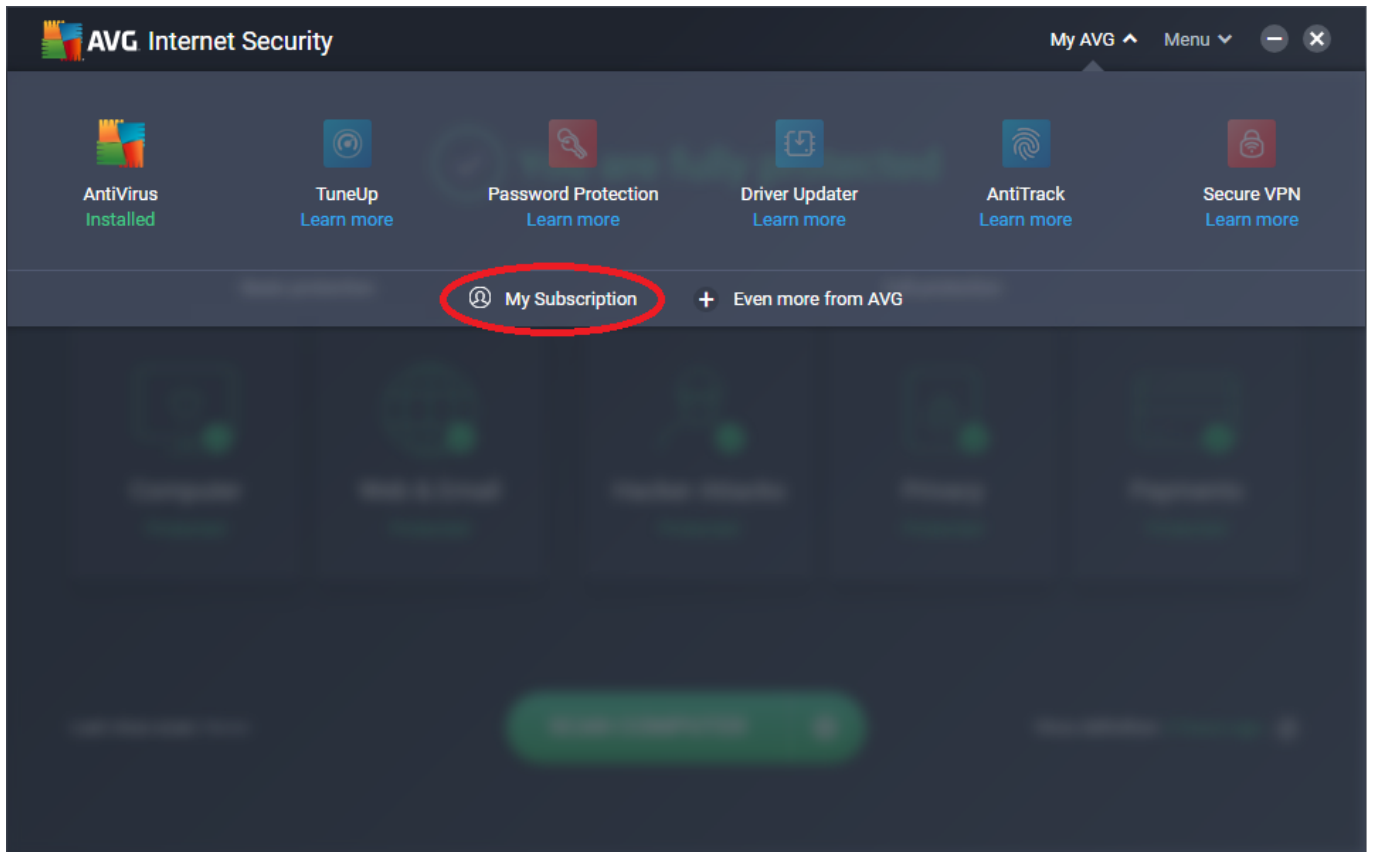

Figure 3: Location of the My Subscription button

Step 4: Select “Enter a valid activation code” on the screen that has now appeared (Figure 4).

Windows

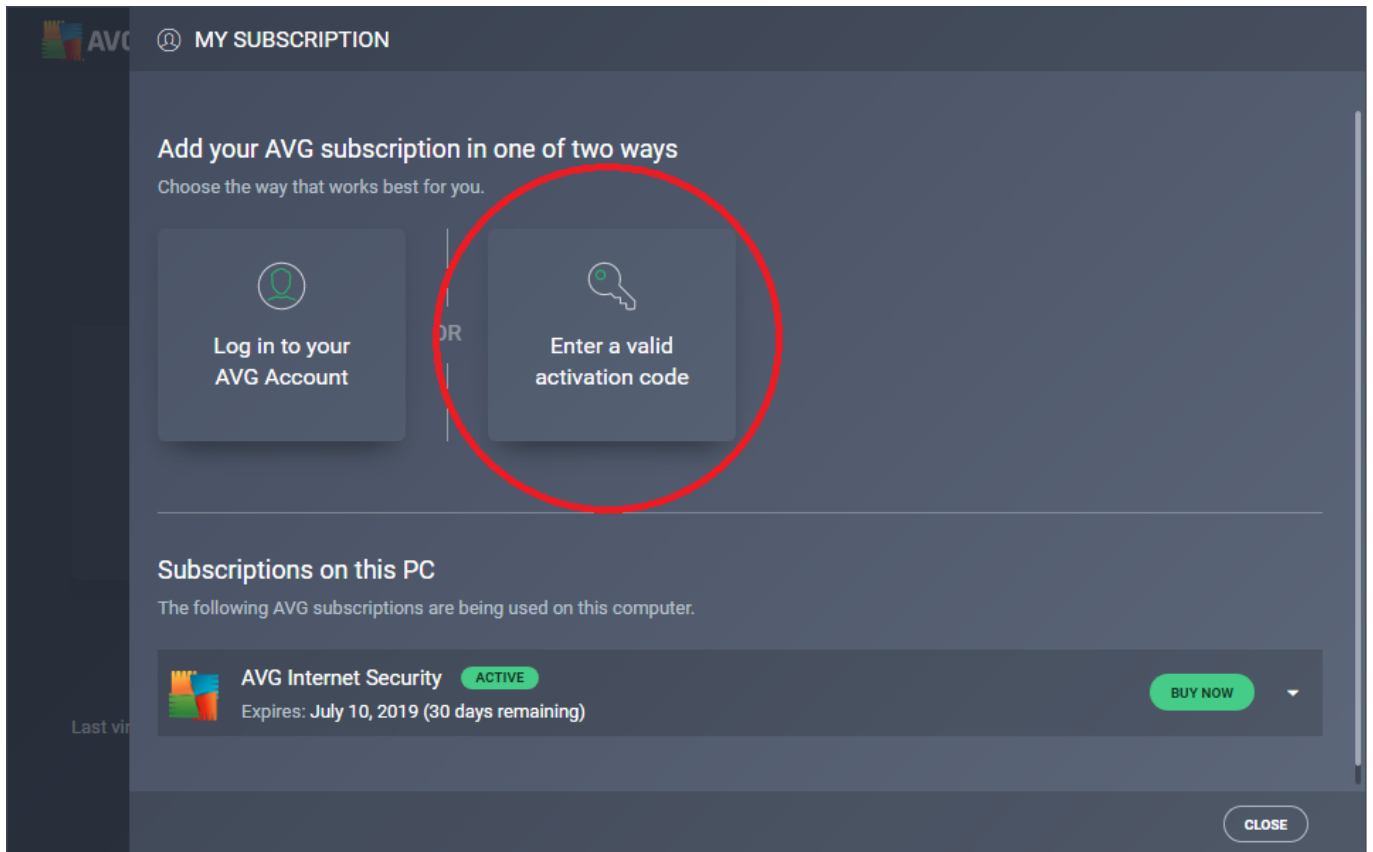

Figure 4: Location of the Subscription code button

Step 5: Paste or type the activation code we sent you making sure to include the hyphens in the correct places and then click on the green Enter button (Figure 5)

Windows

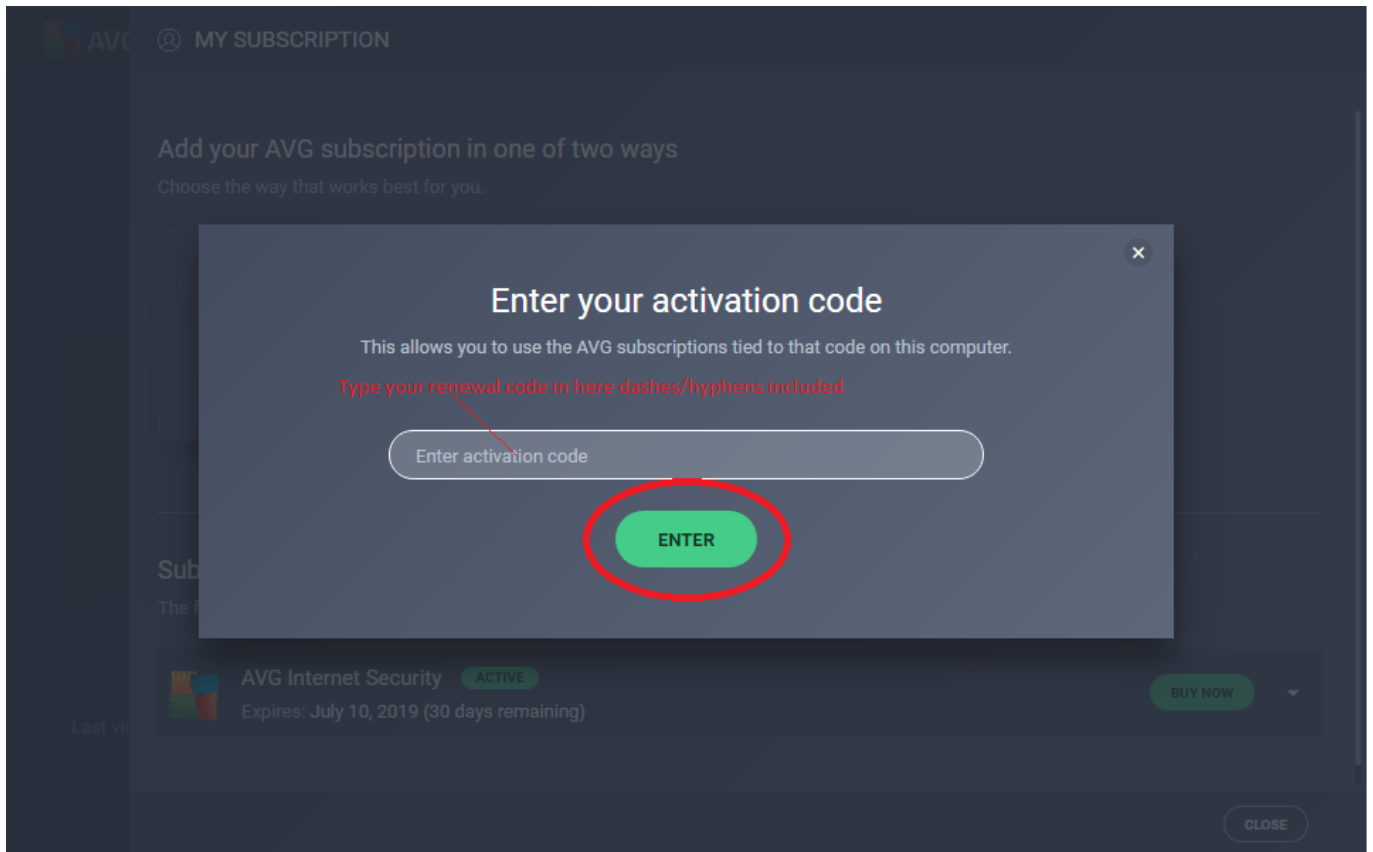

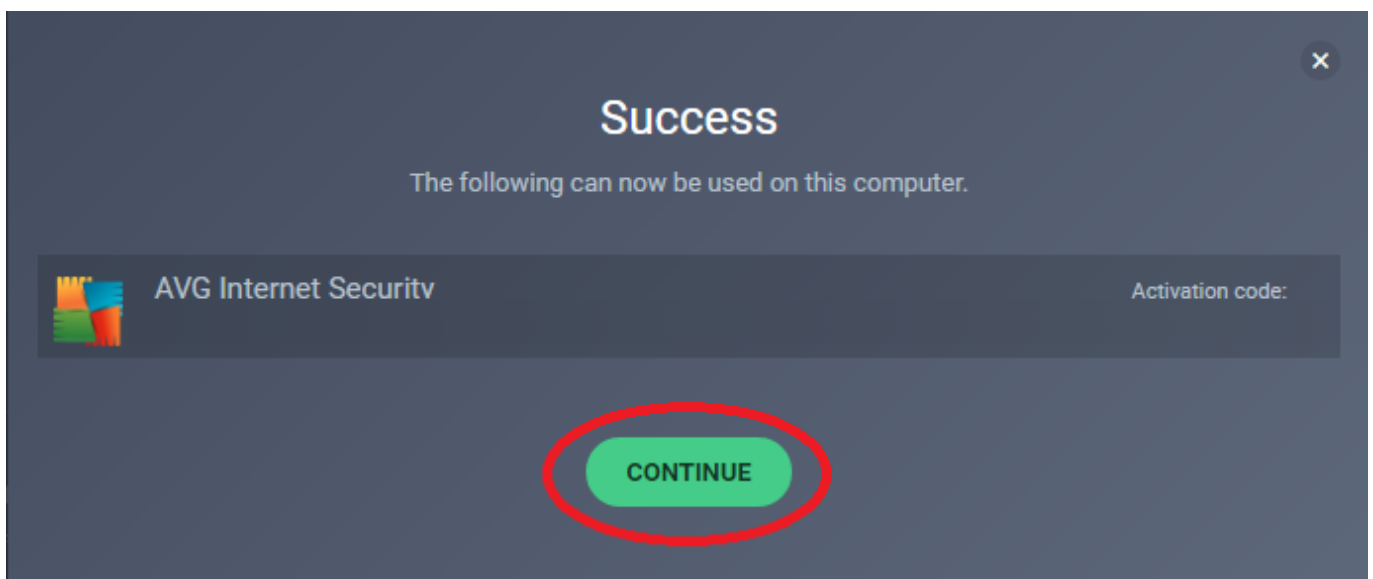

Figure 5: Activation code insertion window

A window now appears and will confirm the details you have just entered and will give you the expiry date of the new code (Figure 6)

Click on the green continue button to close this window and then you can close any of the other open AVG windows

Windows
